

Understanding & Mitigating Cargo Crime Across the Globe

In this webinar our guest speakers delve into the various ways cargo criminals operate in different regions around the world. The session will bring together experts to share insights on the modus operandi and specificities of cargo crimes in different geographies.

[Thorsten Neumann](#), President & CEO of the Transported Assets Protection Association (TAPA) EMEA, will provide a comprehensive overview of global cargo crime trends. He will not only set the scene but also provide an update on the situation in Europe.

You will then hear from regional experts as they explore the methods applied by cargo criminals in their respective regions, shedding light on localized patterns and challenges and how to mitigate the risk:

- [Samuel Markov](#), Director, ARM Services – Latin America
- [Remi Barral](#), Manager, JLB Expertises – Africa
- Dante Ning, Risk Mitigation Department, FRAdjusting – Asia

Following the presentations, our participants will have an opportunity to ask questions. If you have any comments or queries prior to the session, please send them to education@iumi.com.
