

# Bananas - the world's most shipped perishable commodity

Published: 08 May 2018

In this webinar [Johan Van Der Meirsch](#), Director at [DP SURVEY GROUP N.V.](#), discusses the world's most shipped perishable commodity: Bananas.

Johan's presentation considers the complete journey of bananas "from field to fork": Starting at the plantations, pre and post-harvest treatments, handling, packing, shipping in reefer containers and conventional reefer vessels, all the way to the shelf at the final retail warehouse at destination. Throughout the presentation a strong focus is on the various risks which may occur and suitable loss prevention measures to address them.
