

IUMI presentation at IMO Maritime Safety Committee

16th May 2024

This week the 108th session of the IMO's Maritime Safety Committee is underway in London with a number of safety issues on its agenda. The meeting provided an opportunity to present marine insurance trends and developments to IMO delegates from around the world. Astrid Seltmann, Vice Chair of IUMI's Facts & Figures Committee and Analyst/Actuary of The Nordic Association of Marine Insurers (Cefor) addressed the audience with an in-depth analysis, discussing global trade and shipping as well as vessel values, fleet and casualty trends for various vessel types.
