

Top Tier - Container Safety

12th December 2024

In this podcast we discuss the influential Top Tier Joint Industry Project which is being run by MARIN (Maritime Research Institute Netherlands) and focuses on container safety. We speak with Project Direct Jos Koning who shares the project's objectives and gives us an early insight into the findings and conclusions. Around 40 organisations are participating in the project and IUMI is represented through its German member, GDV.
