

## Profile

---

### Andrew Yeoman

CEO

### Experience

Andy is the driving force behind the world's first digital analytics platform for commercial insurance. Working with World-class (re)insurers including Marsh, Willis Re, TransRe and more, Concirus is harnessing the power of data, AI and machine learning to create a sustainable and profitable future for the industry.

Andy has established himself as a thought-leader in the Specialty Insurance market and was recently voted the most influential person in Marine Insurance behind Jon Hancock, Performance Management Director at Lloyd's.

Andy has a unique mix of experience in insurance, technology, fast-growth business strategy, turnarounds and M&A. He has a proven track record in executive management, telematics, big data and business transformation through technology adoption.

Prior to Concirus, Andy was Managing Director at Trimble Inc where he led substantial growth in this global business through both organic and acquisitive strategies. He has enjoyed a career working in Europe, America and Asia. Andrew also holds non-executive directorships and chairman roles and performs regular consulting with the VC and PE industry.

Andy loves a bit of healthy competition and is a regular competitor in the weekend Parkrun – watch out, he's quick over 5kms!
